For manual entry:

Enter number of flags in shiai cells. On completion of each pool total up: the number of Flags, Individual Fight wins and shiai Wins.
 The Position is determined firstly by Wins, then Individual Fight wins if Wins are equal, then Flags if Individual Fight wins are equal.
 If there are two or more teams with equal W, IF and F then those shiai will need to be rerun. Speak with the Shinpan Shunin about this.

If any cells hang up with the formulas:

1. Copy (Ctrl C) that cell
2. Delete the content of that cell (Del)
3. Paste the formula (Ctrl V) back into that cell
