| Use or possession of prohibited | "Regulations" (Use or possession  |  |
| substances                      | of prohibited substances)   |  |
|                                 | Article 17-1 (Illegal equipment)  |  |
| p.1                             | p.1   |  |
|                                 | Article 2: The specifications for   |  |
|                                 | shinai referred to in Article 3 of  |  |
|                                 | the "Regulations" shall be as   |  |
|                                 | follows:  |  |
|                                 | 1. The <i>shinai</i> shall consist of four                                    |  |
|                                 | slats (quartered bamboo) and  |  |
|                                 | should not include therein other  |  |
|                                 | objects other than the core inside  |  |
|                                 | the <i>sakigawa</i> , and the <i>chigiri</i> at the end of the <i>tsuka</i> . |  |
|                                 | Shinai with large gaps in the   |  |
|                                 | alignment of the slats or with  |  |
|                                 | processing or shape alterations   |  |
|                                 | that significantly impair safety  |  |
|                                 | must not be used.   |  |
|                                 | The names of the respective   |  |
|                                 | parts of the shinai are indicated   |  |
|                                 | in Figure 2.  |  |
| p.2                             | p.2   |  |
|                                 | 2. Specifications for the <i>shinai</i>                                       |  |
|                                 | are indicated in Table 2, A and B.  |  |
|                                 | The length indicated therein  |  |
|                                 | refers to the total length of the   |  |
|                                 | shinai inclusive of its accessories;  |  |
|                                 | and the weight to the total weight  |  |
|                                 | thereof inclusive of its  |  |
|                                 | accessories other than the <i>tsuba</i> .                                     |  |
|                                 | The required thickness shall be   |  |

Revision of the FIK Regulations of Kendo Shiai and Shinpan July 26, 2023

|  | determined by the smallest<br>diameter of the tip of the<br><i>sakigawa</i> (distance between<br>opposite sides), and the diameter<br>of the <i>chikuto</i> (distance between<br>opposing corners 8cm from the<br>tip of the <i>shinai</i> ). The tip of the<br><i>shinai</i> shall be the narrowest |
|--|--|
|  | part of the <i>chikuto</i> , which shall<br>become broader from the tip to<br>the <i>monouchi</i> .<br>Article 3: <i>Kendo-gu</i> referred to  |
|  | in Article 4 of the "Regulations"<br>is illustrated in Figure 3.<br>1. The <i>men-buton</i> shall be long  |
|  | enough to protect the shoulder<br>joints and have sufficient shock-<br>absorbing capacity to cushion   |
|  | the impact of a strike.<br>2. <i>Kote</i> shall protect at least one-<br>half of the forearm (the longest<br>section between the elbow and   |
|  | the wrist). The <i>kote</i> fist and the <i>kote-buton</i> shall have sufficient shock-absorbing capacity.   |
|  | 3. The gouge in the <i>kote-buton</i><br>shall not exceed 2.5cm between<br>its longest and shortest parts.   |
|  | Article 3-2 The sleeves of the <i>kendo-gi</i> shall be long enough to protect the elbow joint.  |

| Using or possessing prohibited                     | mean those listed in the latest  |
| substances, or implementing<br>prohibited methods. | Prohibited Table of the World<br>Anti-Doping Agency (WADA).  |

|      | Article 15 The illegal                    |
|------|---|
|      | equipment as stipulated in                |
|      | Article 17 No. 1 of the                   |
|      | "Regulations" refers to all items         |
|      | other than the <i>shinai</i> as specified |
|      | in Article 3 of the "Regulations"         |
|      | (limited to those that meet the           |
|      | standards stipulated in Article 2         |
|      | of the "Subsidiary Rules"), and           |
|      | the kendo-gu (men, kote, do, and          |
|      | tare as illustrated in Figure 3).         |
|      | For the time being, any kendo             |
|      | equipment or <i>kendo-gi</i> that does    |
|      | not meet the criteria of Article 3        |
|      | No. 2~4 and Article 3-2 of the            |
|      | "Subsidiary Rules" will not be            |
|      | considered illegal equipment. In          |
|      | such cases, a caution will be             |
|      | given by the <i>shinpan-in</i> after the  |
|      | match.                                    |
|      | <b>2</b> Jogai as prescribed in Article   |
|      | 17, Item 4 of the "Regulations" is        |
|      | specified as follows:                     |
|      | <b>1.</b> Having one foot totally outside |
|      | the boundary line.                        |
|      | 2.Falling on the floor with a part        |
|      | of the body outside the boundary          |
|      | line.                                     |
|      | 3. Supporting the body with a             |
|      | part of the body or <i>shinai</i> outside |
|      | the boundary line.                        |
